

NHIN Conformance Test Report

Organization Name

Date of Testing

Testing Setup: Indicate what party played the “other” role in the conformance testing exchange. Note that logs from both the initiator and responder are required for *each* test case.

Test Report: Example notes below, indicating the test case, log files, and any notes from the test. Please complete this table, indicating all tests run and relevant notes.

| Test case id | Initiator log file name | Responder log file name | Notes |
|--------------|-------------------------|-------------------------|---|
| PDI-1.1a | pdi-11a-initiator.log | pdi11a-responder.log | Successful |
| PDR-5.3 | pdr-53-initiator.log | pdr-53-responder.log | We responded with one match, a full address, and two phone numbers (our system keeps only one address per patient, so we are unable to return two addresses). |
| ...etc... | | | |
