

About Axolotl Corp.

Founded in 1995, Axolotl Corp. is North America's leading provider of browser-based products and services for secure health information exchange and management. Its Elysium® Exchange suite of solutions enables health care providers to instantly share information, reduce costs, and improve the quality and efficiency of patient care.

Elysium helps thousands of health care entities including hospitals, health systems, regional health information organizations (RHIOs/HIEs), clinics, laboratories, radiology centers and physician practices to securely exchange clinical information for more than 25 million patients. Elysium's community-wide Master Patient Index, EdgeServer(s), Interoperability Hub (I-Hub), Community Virtual Health Record (VHR), and certified ambulatory EMR with integrated e-Prescribing are all provided as a software service (SaaS). Axolotl's customers include:
