

Stanley M. Huff, M.D.

Dr. Huff is Professor (Clinical) of Medical Informatics at the University of Utah, and the Chief Medical Informatics Officer at Intermountain Healthcare. Intermountain Healthcare is a charitable not-for-profit health care organization in the intermountain west that includes 24 hospitals, numerous primary care and specialty clinics, and a health plans (health insurance) division. He has worked in the area of medical vocabularies and medical database architecture for the past 20 years. He is currently a co-chair of the Logical Observation Identifier Names and Codes (LOINC) Committee, a member of the Board of Directors of HL7, and a member of the HIT Standards Committee. He teaches a course in medical vocabulary and data exchange standards at the University of Utah.
