Questions and Discussion
- 11:45 a.m. Closing Remarks/Next Steps**
- 11:50 a.m. Public Comment**
- 12:00 p.m. Adjourn**

Panelist Questions

- In your experience, to what extent are CCDAs interoperable across systems today?
- What has been your experience to date receiving, parsing and incorporating data from CCDAs sent from other systems?
 - Have you encountered challenges with any of the common MU data elements in particular? (demographics, vitals, problems, medications, med allergies, labs, care plan, etc) And if so, which ones?
- If you could do one thing to improve the interoperability of CCDAs today, what would you do/where would you focus?
