Software Updates
Cypress 6.2.2

- Cypress 6.2.2
  - Was released on September 23, 2021

- Features
  - Strict enforcement of Author templateIds
  - Display rank for Encounter Diagnosis in HTML views ([Cypress-2280](#))
  - Measure ID check for CVU+ QRDA Category III validations ([Cypress-2295](#))
    - Will verify that all expected measures are being reported
    - Will return warnings when measures are missing
  - Scoop and filter applied to C1 Record Sample patients
    - Limits patient data to the relevant eCQMs
Software Updates
Strict enforcement of Author templateIds

- **Background**
  - QRDA defines 2 author templates
    - Author (2.16.840.1.113883.10.20.24.3.155:2019-12-01)
      - Used by 37 QDM Datatypes
    - Author Participation (2.16.840.1.113883.10.20.22.4.119)
      - Used by 1 QDM Datatype (Discharge Medication)
  - For 2020 Reporting, Hospital Quality Reporting (HQR) and The Joint Commission (TJC) systems ignored the templateId when importing Author dateTime
  - For 2021 Reporting, HQR and TJC will enforce that the correct templateId is provided when importing Author dateTime

- **Starting with Cypress 6.2.2** Author dateTimes reported using the incorrect templateId will not be used in eCQM calculations
**Recent Issue**

**Author Participation IDs**

- Known issue Cypress-2307
  - nullFlavored IDs provided by Cypress in Author Participation templates do not strictly conform with QRDA guidance.

- Addressed with a v6.2.2.1 patch that has been made available via the upgrade path.

```xml
<author>
  <templateId root="2.16.840.1.113883.10.20.22.4.119"/>
  <!-- QDM Attribute: authorDateTime -->
  <time value="20200407123000"/>
  <assignedAuthor>
    <id nullFlavor="NA"/>
  </assignedAuthor>
</author>
```

Before

```xml
<author>
  <templateId root="2.16.840.1.113883.10.20.22.4.119"/>
  <!-- QDM Attribute: authorDateTime -->
  <time value="20200407123000"/>
  <assignedAuthor>
    <id_extension="1362607735" root="2.16.840.1.113883.4.6"/>
  </assignedAuthor>
</author>
```

After

3. **SHALL** contain exactly one [1..1] `assignedAuthor` (CONF:1098-31472).
   
   a. This `assignedAuthor` **SHALL** contain at least one [1..*] `id` (CONF:1098-31473).
      
      Note: This id may be set equal to (a pointer to) an id on a participant elsewhere in the document (header or entries) or a new author participant can be described here. If the id is pointing to a participant already described elsewhere in the document, `assignedAuthor/id` is sufficient to identify this participant and none of the remaining details of `assignedAuthor` are required to be set. Application Software must be responsible for resolving the identifier back to its original object and then rendering the information in the correct place in the containing section's narrative text. This id must be a pointer to another author participant.

   i. If the ID isn't referencing an author described elsewhere in the document, then the author components required in US Realm Header are required here as well (CONF:1098-32628).
Recent Issue

C1 Record Sample - using relevantPeriod and relevantDatetime

- **Known issue Cypress-2305**
  - The 2020 Bundle for 2021 reporting allowed for interchangeable use of Relevant Period and Relevant Datetime.
  - A bug in C1 Record Sample tests in Cypress 6.2.0 no longer allowed for interchangeable use with the 2020 Bundle.

- **Addressed with a v6.2.2.1 patch that has been made available via the upgrade path.**

- **Note:** The 2021 Bundle does not allow for interchangeable use of Relevant Period and Relevant Datetime.

OPEN DISCUSSION
Next Cypress Tech Talk

- Tuesday, December 14, 2021 at 1pm ET
- To join online, visit: https://global.gotomeeting.com/join/529898157
- To join via phone, dial: 1-646-749-3122
- Meeting Number: 529 898 157
- Meeting link, as well as a calendar event file, available at:
  - https://www.healthit.gov/cypress/techtalks.html

- Note: Cypress Tech Talks will now occur every 4 weeks
Notes

- Completed Webinars will be posted on the Cypress website on the Tech Talks tab
  - https://www.healthit.gov/cypress/techtalks.html

- Send questions and feedback to the Cypress Talk List at
  - project-cypress-talk@googlegroups.com

- Report bugs and issues to the Cypress JIRA at
  - https://oncprojecttracking.healthit.gov/support/browse/CYPRESS
