

AGENDA

Health IT Policy Committee

Advanced Health Models and Meaningful Use Workgroup

Tuesday, June 2, 2015, 9:00 a.m. to 4:45 p.m. ET

Crystal City Marriot at Reagan National

Hearing on Advanced Health Models

PURPOSE

Provide recommendations to the HITPC to facilitate the effective use of HIT to support and scale advanced health models in support of the Advanced Health Models and Meaningful Use Workgroup charge and of delivery system reform goals.

OBJECTIVES

1. Identify innovative, integrated, holistic, health IT-enabled advanced health models that produce both optimal health and healthcare for individuals and communities.
2. Clarify and highlight the functional specifications of key Health IT elements required to support such advanced health models (examples: integrating data across settings, enabling coordinated care among health professionals, individuals, care teams, and social/human service organizations, promoting individual health engagement and shared decision making).
3. Understand how various data sources support a comprehensive view of an individual (examples: clinical data from across settings, social determinants of health, data on social services, pharmacy data, data around behavioral health services, and data from health plans & employers, patient generated data, and other sources informing total cost of health and of care).
4. Understand the opportunities, challenges, and policies needed for successfully scaling and sustaining the IT infrastructure required to promote advanced health models across communities.

AGENDA

9:00 – 9:10 a.m. Introductions and Opening Remarks

- Paul Tang, Health IT Policy Committee Vice Chair, Workgroup Chair

9:10 – 9:40 a.m. Framing Remarks

- Jodi Daniel, ONC
- Thomas Mason, ONC
- Chisara Asomugha, CMS
- Suma Nair, HRSA

9:40 – 11:20 a.m. PANEL I: How Advanced Health Models Integrate Data across Service Delivery to support Health for Individuals

This panel will focus on holistic models that integrate data across the continuum of care (including both medical and non-medical service providers) to impact the health of the individual.

- Nancy Garrett, Hennepin Health (Minnesota)
- Virna Little, Institute of Family Health (New York)
- Allen Dobson, Community Care of North Carolina (North Carolina)
- Ruben Amarasingham, Parkland Center for Clinical Innovation (Texas)

11:20 – 11:30 p.m. Public Comment

11:30 – 12:20 p.m. LUNCH BREAK

12:20 – 1:50 p.m. PANEL II: How Advanced Health Models are Supporting Whole Health and Wellness for the Individual across the Continuum

This panel will focus on advanced health models successfully exchanging information across the continuum of health in support of interventions that focus on preventive care and wellness, and on re-defining the clinical visit.

Moderator: Arthur Davidson, Workgroup Member, Denver Public Health Department

- Steve Tierney, South Central Foundation (Alaska)
- Fred Rachman, Alliance of Chicago (Illinois)
- Nancy Eldridge, Cathedral Square Corporation and SASH (Vermont)

1:50 – 2:00 p.m. Break

2:00 – 3:30 p.m. PANEL III: How Advanced Health Models are Supporting Integrated Care for Individuals with Complex, Chronic Conditions

Moderator: Michael H. Zaroukian, Workgroup Member, Sparrow Health System

This panel will focus on advanced health models that have made important gains in integrating data across the continuum of care to support more effective, coordinated care for complex patients facing multiple chronic conditions with substantial utilization of health care system resources.

- Sharon Hewner, SUNY Buffalo (New York)
- Jim Dunford, San Diego Community Information Exchange (California)
- Lee Sacks, Advocate Health System (Illinois)

3:30 – 3:40 p.m. Public Comment

3:40 – 4:40 p.m. Workgroup Discussion on Themes from the Day/Wrap-up

4:40 - 4:45 p.m. Closing Remarks

- Jodi Daniel, ONC
