

## Test Scenario Data for §170.314(a)(10) Drug-formulary checks

*Reference the Test Scenario Procedure for Test Scenario Data implementation guidance.*

*RxNorm codes and National Drug Code (NDC) product codes are not required to meet this certification criterion. They are provided for reference only. The certification criterion does not specify order entry as the context for checking the drug formulary or preferred drug list. The Test Scenario Data, by listing medication orders, are intended to support this context if the Vendor chooses order entry as the context. The drug names in the Test Scenario Data may be used alone if the Vendor chooses a different context.*

### **TD170.314(a)(10) – 1: Automatically and Electronically Check Drug-Formulary or Preferred Drug List**

#### Drug Test Data – Myra Jones

- Fluticasone 110 mcg one puff inhale twice daily  
RxNorm code: 1165655; sample NDC product code: 54868-5362
- Metoprolol Tartrate 25 mg tablet by mouth twice daily  
RxNorm code: 866924; sample NDC product code: 0078-0460
- Ciprofloxacin 500 mg by mouth every 12 hours for three days  
RxNorm code: 309309; sample NDC product code: 55289-821
- Albuterol 0.09 mg/ACTUAT  
RxNorm code: 573621; sample NDC product code: 0173-0682

#### Drug Test Data – Isabella Jones

- Albuterol 2.5 mg / 3 mL nebulizer by mouth four times daily as needed  
RxNorm code: 1154602; sample NDC product code: 55154-4350
- Ceftriaxone 1 gram intravenously once daily  
RxNorm code: 1152108; sample NDC product code: 0338-5002
- Albuterol 0.09 mg two puffs inhale once daily  
RxNorm code: 573621; sample NDC product code: 0088-2219
