

Test Scenario Data for §170.314(f)(1) Immunization Information

Reference the Test Scenario Procedure for Test Scenario Data implementation guidance.

The Tester shall select at random one of the three Data Sets provided below to perform the EHR certification testing. Each Data Set includes test data for three instances of immunization information to be electronically Recorded, Changed, and Accessed. The methods used to Record, Change, and Access the immunization information are not prescribed by the certification testing procedure. The format used for organizing the immunization information test data does not prescribe the format for rendering the information by the EHR.

TD170.314()(1) Immunization Information – Myra Jones

Electronically Record Immunization Information

A user records three instances of immunization information for the test patient(s).

Record Instance 1:

Vaccine Administered: Influenza Date/Time Start of Administration: 5/16/2012, 0930 Administration Notes: New administration record Administration Amount: 0.25 ml Substance Lot Number: J6702KP Substance Expiration Date: 12/16/2012 Substance Manufacturer Name: Sanofi Pasteur Route: Intramuscular Administration Site: Right arm

Record Instance 2:

Vaccine Administered: Tdap Date/Time Start of Administration: 4/14/ 2012 Administration Notes: Historical information - source unspecified Administration Amount: (unknown) Substance Lot Number: (unknown) Substance Expiration Date: (unknown) Substance Manufacturer Name: (unknown) Route: (unknown) Administration Site: (unknown)

Record Instance 3:

Vaccine Administered: PPSV23 Date/Time Start of Administration: 08/14/2012, 0900 Administration Notes: Patient given Vaccine Information Statement for Pneumococcal Polysaccharide Vaccine published by the CDC on Oct 6, 2009 Administration Amount: 0.5 ml Substance Lot Number: 190FV Substance Expiration Date: 12/14/2012 Substance Manufacturer Name: Merck and Co Route: Intramuscular Administration Site: Right arm

Record Instance 4:

<u>Vaccine Administered</u>: Hep A <u>Date/Time Start of Administration</u>: 02/14/2011 <u>Administration Notes</u>: Historical information - source unspecified <u>Administration Amount</u>: (unknown)¹ <u>Substance Lot Number</u>: (unknown) <u>Substance Expiration Date</u>: (unknown) <u>Substance Manufacturer Name</u>: (unknown) <u>Route</u>: (unknown) <u>Administration Site</u>: (unknown)

Electronically Change Immunization Information

A user changes the three instances of immunization information recorded for the test patient(s).

Change Instance 1: Mark words as error and enter replacement words. (Strikethrough is used only to indicate to the Tester and Vendor which words are error and does not prescribe <u>how</u> the EHR is to mark the words as error) Vaccine Administered: Influenza Date/Time Start of Administration: 5/16/2012, 0930 **0900** Administration Notes: New administration record Administration Amount: 0.25 ml Substance Lot Number: J6702KP L6802KP Substance Expiration Date: 12/16/2012 Substance Manufacturer Name: Sanofi Pasteur Route: Intramuscular Administration Site: Right Left arm

¹ Where "(unknown)" appears in the test data, either no information or the word "unknown" may be recorded

Change Instance 2: Add words to the Information <u>Vaccine Administered</u>: Tdap <u>Date/Time Start of Administration</u>: 4/14/2012 <u>Administration Notes</u>: Historical information - source unspecified; written consent obtained to share vaccination history with the IIS <u>Administration Amount</u>: (unknown) <u>Substance Lot Number</u>: (unknown) <u>Substance Expiration Date</u>: (unknown) <u>Substance Manufacturer Name</u>: (unknown) <u>Route</u>: (unknown) <u>Administration Site</u>: (unknown)

Change Instance 4: Immunization information was entered into the wrong patient's record. Mark all information as entered in error. (Strikethrough is used only to indicate to the Tester and Vendor that the entire note is to be marked as error and does not prescribe <u>how</u> the EHR is to mark the note as error) <u>Vaccine Administered</u>: Hep A <u>Date/Time Start of Administration</u>: 02/14/2011 <u>Administration Notes</u>: Historical information - source unspecified <u>Administration Amount</u>: (unknown)² <u>Substance Lot Number</u>: (unknown) <u>Substance Expiration Date</u>: (unknown) <u>Substance Manufacturer Name</u>: (unknown) <u>Route</u>: (unknown) <u>Administration Site</u>: (unknown)

Electronically Access Immunization Information

A user accesses and displays the three instances of immunization information that were recorded and changed.

Access Instance 1:

Vaccine Administered: Influenza Date/Time Start of Administration: 5/16/2012, 0900 Administration Notes: New administration record Administration Amount: 0.25 ml Substance Lot Number: L6802KP Substance Expiration Date: 12/16/2012 Substance Manufacturer Name: Sanofi Pasteur Route: Intramuscular Administration Site: Left arm

² Where "(unknown)" appears in the test data, either no information or the word "unknown" may be recorded

Access Instance 2:

Vaccine Administered: Tdap <u>Date/Time Start of Administration</u>: 4/14/ 2012 <u>Administration Notes</u>: Historical information - source unspecified; written consent obtained to share vaccination history with the IIS <u>Administration Amount</u>: (unknown) <u>Substance Lot Number</u>: (unknown) <u>Substance Expiration Date</u>: (unknown) <u>Substance Manufacturer Name</u>: (unknown) <u>Route</u>: (unknown) <u>Administration Site</u>: (unknown)

Access Instance 3:

Vaccine Administered: PPSV23 Date/Time Start of Administration: 08/14/2012, 0900 Administration Notes: Patient given Vaccine Information Statement for Pneumococcal Polysaccharide Vaccine published by the CDC on Oct 6, 2009 Administration Amount: 0.5 ml Substance Lot Number: 190FV Substance Expiration Date: 12/14/2012 Substance Manufacturer Name: Merck and Co Route: Intramuscular Administration Site: Right arm

Access Instance 4: All information has been marked as error. (Strikethrough is used only to indicate to the Tester and Vendor that the entire note was marked as error and does not prescribe <u>how</u> the EHR is to indicate it is error data) <u>Vaccine Administered</u>: Hep A <u>Date/Time Start of Administration</u>: 02/14/2011 <u>Administration Notes</u>: Historical information - source unspecified <u>Administration Amount</u>: (unknown)³ <u>Substance Lot Number</u>: (unknown) <u>Substance Expiration Date</u>: (unknown) <u>Substance Manufacturer Name</u>: (unknown) <u>Route</u>: (unknown)

Administration Site: (unknown)

³ Where "(unknown)" appears in the test data, either no information or the word "unknown" may be recorded

TD170.314(f)1 Immunization Information – Isabella Jones

Electronically Record Immunization Information

A user records three instances of immunization information for the test patient(s).

Record Instance 1:

<u>Vaccine Administered</u>: Influenza, seasonal, injectable, preservative free <u>Date/Time Start of Administration</u>: 05/04/2012, 0900 <u>Administration Amount:</u> 0.25 ml <u>Substance Lot Number</u>: Z0860BB <u>Substance Expiration Date</u>: 11/04/2012 <u>Substance Manufacturer Name</u>: CSL Behring <u>Route</u>: Intramuscular <u>Administration Site</u>: Left Arm

Record Instance 2:

Vaccine Administered: Tdap Date/Time Start of Administration: 04/14/2012, 0930 Administration Amount: 0.5 ml Substance Lot Number: I90FV Substance Expiration Date: 12/14/2012 Substance Manufacturer Name: GlaxoSmithKline Route: Intramuscular Administration Site: Right Arm

Record Instance 3:

Vaccine Administered: Hep A Date/Time Start of Administration: 02/14/2011 Administration Notes: Historical information - source unspecified Administration Amount: (unknown)⁴ Substance Lot Number: (unknown) Substance Expiration Date: (unknown) Substance Manufacturer Name: (unknown) Route: (unknown) Administration Site: (unknown)

⁴ Where "(unknown)" appears in the test data, either no information or the word "unknown" may be recorded

Electronically Change Immunization Information

A user changes the three instances of immunization information recorded for the test patient(s).

Change Instance 1: Mark words as error and enter replacement words. (Strikethrough is used only to indicate to the Tester and Vendor which words are error and does not prescribe <u>how</u> the EHR is to mark the words as error) Vaccine Administered: Influenza, seasonal, injectable, preservative free Date/Time Start of Administration: 05/04/2012, 0900 0930 Administration Amount: 0.25 ml Substance Lot Number:-Z0860BB A0430EE Substance Expiration Date: 11/04/2012 Substance Manufacturer Name: CSL Behring Route: Intramuscular Administration Site: Left Arm Right Arm

Change Instance 2: Add words to the Information Vaccine Administered: Tdap Date/Time Start of Administration: 04/14/2012, 0930 Administration Notes: Rash noted at injection site immediately after administration Administration Amount: 0.5 ml Substance Lot Number: 190FV Substance Expiration Date: 12/14/2012 Substance Manufacturer Name: GlaxoSmithKline Route: Intramuscular Administration Site: Right Arm

Change Instance 3: Immunization information was entered into the wrong patient's record. Mark all information as entered in error. (Strikethrough is used only to indicate to the Tester and Vendor that the entire note is to be marked as error and does not prescribe <u>how</u> the EHR is to mark the note as error) <u>Vaccine Administered</u>: Hep A <u>Date/Time Start of Administration</u>: 02/14/2011, 0945 <u>Administration Notes</u>: Historical information - source unspecified <u>Administration Amount</u>: (unknown) <u>Substance Lot Number</u>: (unknown) <u>Substance Manufacturer Name</u>: (unknown) <u>Route</u>: (unknown) <u>Administration Site: (unknown)</u>

Electronically Access Immunization Information

A user accesses and displays the three instances of immunization information that were recorded and changed.

Access Instance 1:

Vaccine Administered: Influenza, seasonal, injectable, preservative free Date/Time Start of Administration: 05/04/2012, 0930 Administration Amount: 0.25 ml Substance Lot Number: A0430EE Substance Expiration Date: 11/04/2012 Substance Manufacturer Name: CSL Behring Route: Intramuscular Administration Site: Right Arm

Access Instance 2:

Vaccine Administered: Tdap Date/Time Start of Administration: 04/14/2012, 0930 Administration Notes: Rash noted at injection site immediately after administration Administration Amount: 0.5 ml Substance Lot Number: 190FV Substance Expiration Date: 12/14/2012 Substance Manufacturer Name: GlaxoSmithKline Route: Intramuscular Administration Site: Right Arm

Access Instance 3: All information has been marked as error.

(Strikethrough is used only to indicate to the Tester and Vendor that the entire note was marked as error and does not prescribe <u>how</u> the EHR is to indicate it is error data)

Vaccine Administered: Hep A

Date/Time Start of Administration: 02/14/2011

Administration Notes: Historical information - source unspecified

Administration Amount: (unknown)

Substance Lot Number: (unknown)

Substance Expiration Date: (unknown)

Substance Manufacturer Name: (unknown) Route: (unknown)

Administration Site: (unknown)

TD170.314(f)(1) Immunization Information – Data Set # 3

Electronically Record Immunization Information

A user records three instances of immunization information for the test patient(s).

Record Instance 1:

Vaccine Administered: Hep A Date/Time Start of Administration: 12/15/2011 Administration Notes: Historical information - source unspecified Administration Amount: (unknown) Substance Lot Number: (unknown) Substance Expiration Date: (unknown) Substance Manufacturer Name: (unknown) Route: (unknown) Administration Site: (unknown)

Record Instance 2:

Vaccine Administered: Tdap Date/Time Start of Administration: 08/16/2012, 0930 Administration Notes: New record Administration Amount: 0.5 ml Substance Lot Number: Z79YG Substance Expiration Date: 12/16/2012 Substance Manufacturer Name: GlaxoSmithKline Route: Intramuscular Administration Site: Right Arm

Record Instance 3:

Vaccine Administered: Influenza Date/Time Start of Administration: 08/15/2012, 0945 Administration Notes: Patient given Vaccine Information Statement for Hepatitis A published by the CDC on Jan 24, 2012 Administration Amount: 0.25 ml Substance Lot Number: Y8789ZR Substance Expiration Date: 12/15/2012 Substance Manufacturer Name: Sanofi Pasteur Route: Intramuscular Administration Site: Left Arm

Electronically Change Immunization Information

A user changes the three instances of immunization information recorded for the test patient(s).

Change Instance 1: Mark words as error and enter replacement words. (Strikethrough is used only to indicate to the Tester and Vendor which words are error and does not prescribe <u>how</u> the EHR is to mark the words as error) Vaccine Administered: Hep A Date/Time Start of Administration: 12/15/2011 Administration Notes: Historical information - source unspecified is patient Administration Amount: (unknown) Substance Lot Number: (unknown) Substance Expiration Date: (unknown) Substance Manufacturer Name: (unknown) Route: (unknown) Administration Site: (unknown)

Change Instance 2: Add words to the Information Vaccine Administered: Tdap Date/Time Start of Administration: 08/16/2012, 0930 Administration Notes: New immunization record; written consent obtained to share vaccination history with the IIS Administration Amount: 0.5 ml Substance Lot Number: Z79YG Substance Expiration Date: 12/16/2012 Substance Manufacturer Name: GlaxoSmithKline Route: Intramuscular Administration Site: Right Arm

Change Instance 3: Immunization information was entered into the wrong patient's record. Mark all information as entered in error. (Strikethrough is used only to indicate to the Tester and Vendor that the entire note is to be marked as error and does not prescribe <u>how</u> the EHR is to mark the note as error) <u>Vaccine Administered</u>: Influenza <u>Date/Time Start of Administration</u>: 08/15/2012, 0945 <u>Administration Notes</u>: Patient given Vaccine Information Statement for Hepatitis A published by the CDC on Jan 24, 2012 <u>Administration Amount</u>: 0.25 ml <u>Substance Lot Number</u>: Y8789ZR <u>Substance Lot Number</u>: Y8789ZR <u>Substance Manufacturer Name</u>: Sanofi Pasteur <u>Route</u>: Intramuscular Administration Site: Left Arm

Electronically Access Immunization Information

A user accesses and displays the three instances of immunization information that were recorded and changed.

Access Instance 1:

Vaccine Administered: Hep A Date/Time Start of Administration: 12/15/2011 Administration Notes: Historical information - source is patient Administration Amount: (unknown) Substance Lot Number: (unknown) Substance Expiration Date: (unknown) Substance Manufacturer Name: (unknown) Route: (unknown) Administration Site: (unknown)

Access Instance 2:

Vaccine Administered: Tdap Date/Time Start of Administration: 08/16/2012, 0930 Administration Notes: New immunization record; written consent obtained to share vaccination history with the IIS Administration Amount: 0.5 ml Substance Lot Number: Z79YG Substance Expiration Date: 12/16/2012 Substance Manufacturer Name: GlaxoSmithKline Route: Intramuscular Administration Site: Right Arm

Access Instance 3: All information has been marked as error.

(Strikethrough is used only to indicate to the Tester and Vendor that the entire note was marked as error and does not prescribe how the EHR is to indicate it is error data)

Vaccine Administered: Influenza

- Date/Time Start of Administration: 08/15/2012, 0945
- Administration Notes: Patient given Vaccine Information Statement for Hepatitis
- A published by the CDC on Jan 24, 2012

Administration Amount: 0.25 ml

- Substance Lot Number: Y8789ZR
- Substance Expiration Date: 12/15/2012

Substance Manufacturer Name: Sanofi Pasteur

Route: Intramuscular

Administration Site: Left Arm
