COMMUNITY PEER HEALTH LEARNING – PROGRAM DESCRIPTION
• Expand on the Beacon Communities program, which advanced the use of health IT for 17 communities and 9,000 providers and resulted in improvements in quality, efficiency, and sustainability
• Address population-level health challenges in ten communities through a community-based collaborative approach
• Develop and disseminate resources documenting health IT strategies and promising practices for addressing community health challenges
• ONC will select one grantee to manage the CHP program
• The grantee will develop an application process to select ten communities to participate
  – *Participating communities* will identify a population-level health challenge to address by improving the use, effectiveness, and interoperability of health IT
  – *Subject Matter Expert Communities* have addressed specific health challenges and will have best practices and lessons learned to share
• Communities will work together to develop and implement action plans to address their identified population health challenges
• Design and conduct a nationwide application process to select up to ten communities
• Create program resources to guide development of action plans
• Plan and conduct two meetings where communities, government partners, and other key stakeholders can work together to share information, identify resources, and develop actions plans
• Monitor and report progress as communities develop and implement application plans
• Development of an impactful, measureable, and actionable community plan to implement solutions to population-level health management challenges using improved data access, flow, and analysis

• Development of resources that document strategies, approaches, and best practices for addressing population health challenges that can be shared with CHP Program participants and a broader audience

• Development of cross-community partnerships that address multiple population health challenges through peer learning, SME guidance, and program learning

APPLICATION RESPONSIVENESS AND OBJECTIVE REVIEW
• Submit all application materials electronically through grant.gov
• Grants.gov issues an email receipt upon successful submission
• ONC issues receipt upon successfully obtaining files from grants.gov
• Applications are reviewed for responsiveness and categorized as pass/fail
• All applications that pass the review for responsiveness are forwarded for objective review
• Once objective review is complete, ONC may make award
• ONC is not obligated to make an award if none of the applications meet the intent of program requirements or if funding levels or availability changes
Applicants not meeting the following completeness criteria will be administratively eliminated and not sent for objective review:

- The applicant meets the eligibility criteria
- The application is received by the deadline required by 11:59 P.M. Eastern Time April 6, 2015 through [http://www.grants.gov](http://www.grants.gov)
- The application meets the formatting and length requirements
- The application presents a defined core set of community-level population health management challenges and topics that the applicant understands
- Appendices and attachments are not used as a mechanism to exceed page limits of the Project Narrative
Objective Review Criteria

- Responsive applications are forwarded for objective review
- Objective review conducted by a panel of at least 3 experts in areas relevant to the CHP Program
- Applications can receive a maximum of 100 points, using the following scale:
