Network Access Checklist

❑ Policies are in place prescribing network configuration and access.

❑ All staff members understand and agree to abide by network use policy.

❑ Access to the network is restricted to authorized users and devices.

❑ Guest devices are prohibited from accessing networks that contain Protected Health Information (PHI).

❑ Wireless networks use appropriate encryption.

❑ Computers contain no peer-to-peer applications.

❑ Public instant messaging services are not used.

❑ Private instant messaging services, where used, are secured appropriately.
