The Precision Medicine Initiative (PMI)

A federal effort launched in 2015

MISSION: To enable a new era of medicine through research, technology, and policies that empower patients, researchers, and providers to work together toward development of individualized care.

The All of Us Research Program

- **The cornerstone of the larger PMI – led by the NIH**
- **One million or more volunteers, reflecting the broad diversity of the U.S.**
- **Opportunities for volunteers to provide data on an ongoing basis**
- **Data will inform a variety of research studies**

Mission

To accelerate health research and medical breakthroughs, enabling individualized prevention, treatment, and care for all of us.

<https://allofus.nih.gov/>

ONC PMI Activities

- **Sync for Science Pilot**
- **Sync for Science Application Programming Interface (API) Privacy and Security**
- **Sync for Genes**

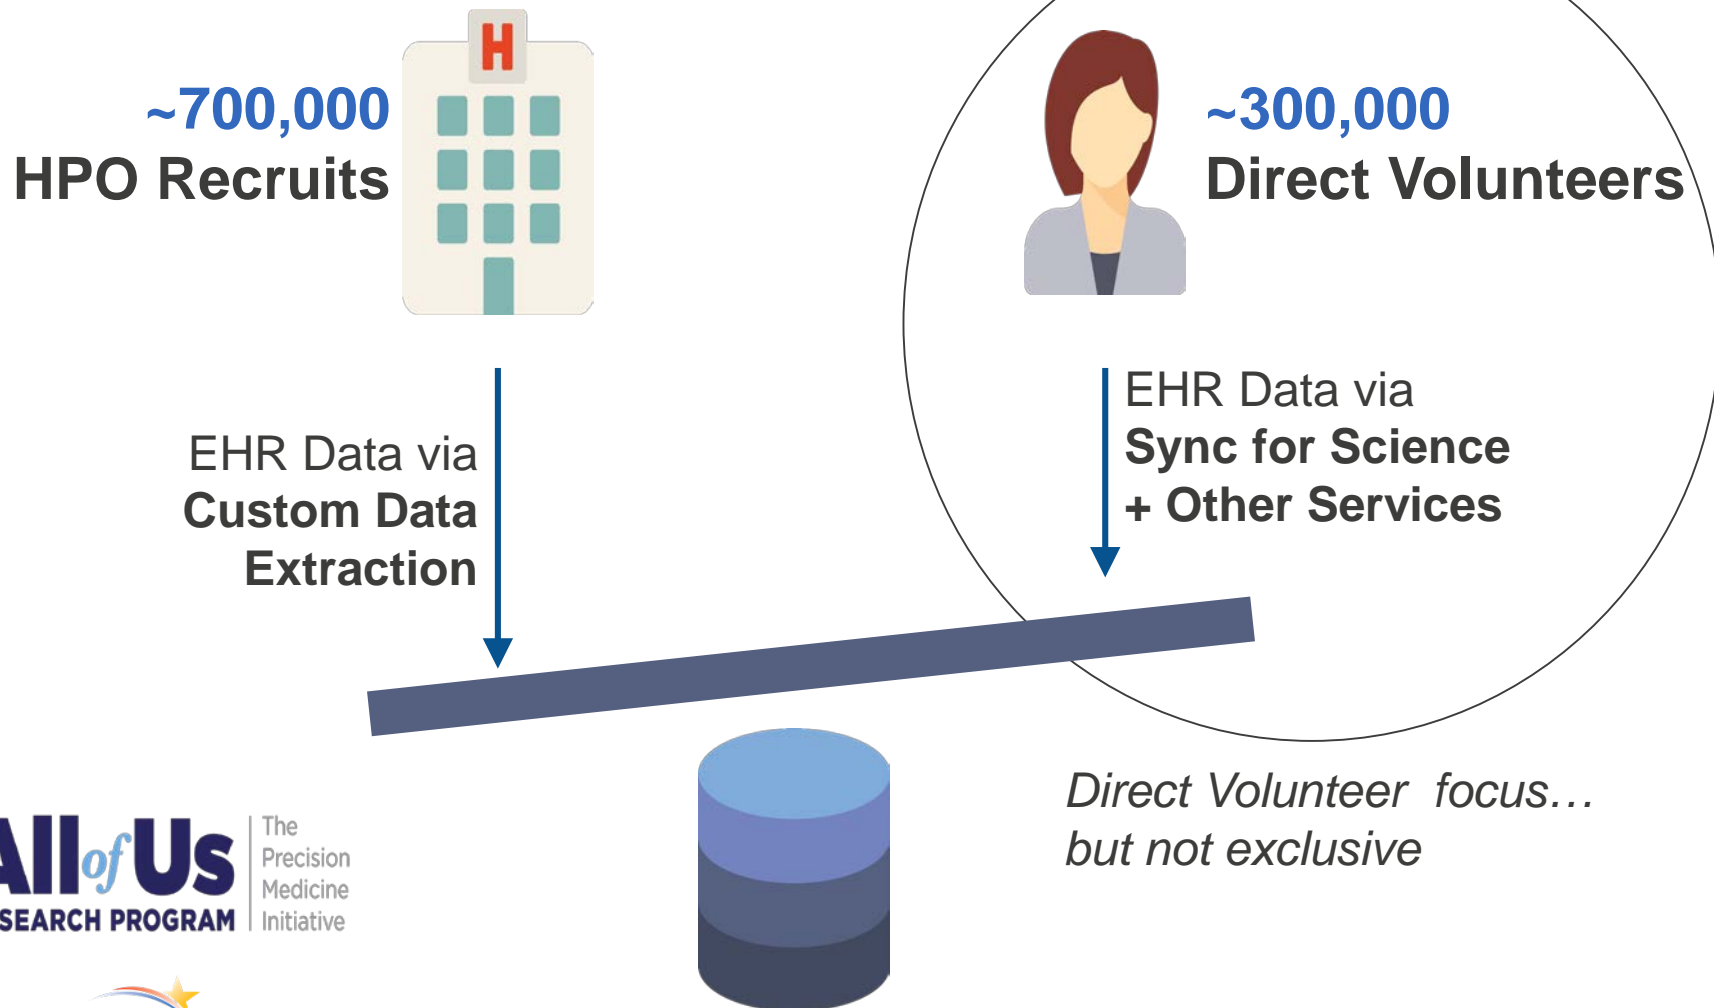

<https://healthit.gov/topic/precision-medicine>

- **With a click of a button, individuals will be able to voluntarily share their health data to help scientists perform groundbreaking research**

Patients Sharing EHR Data

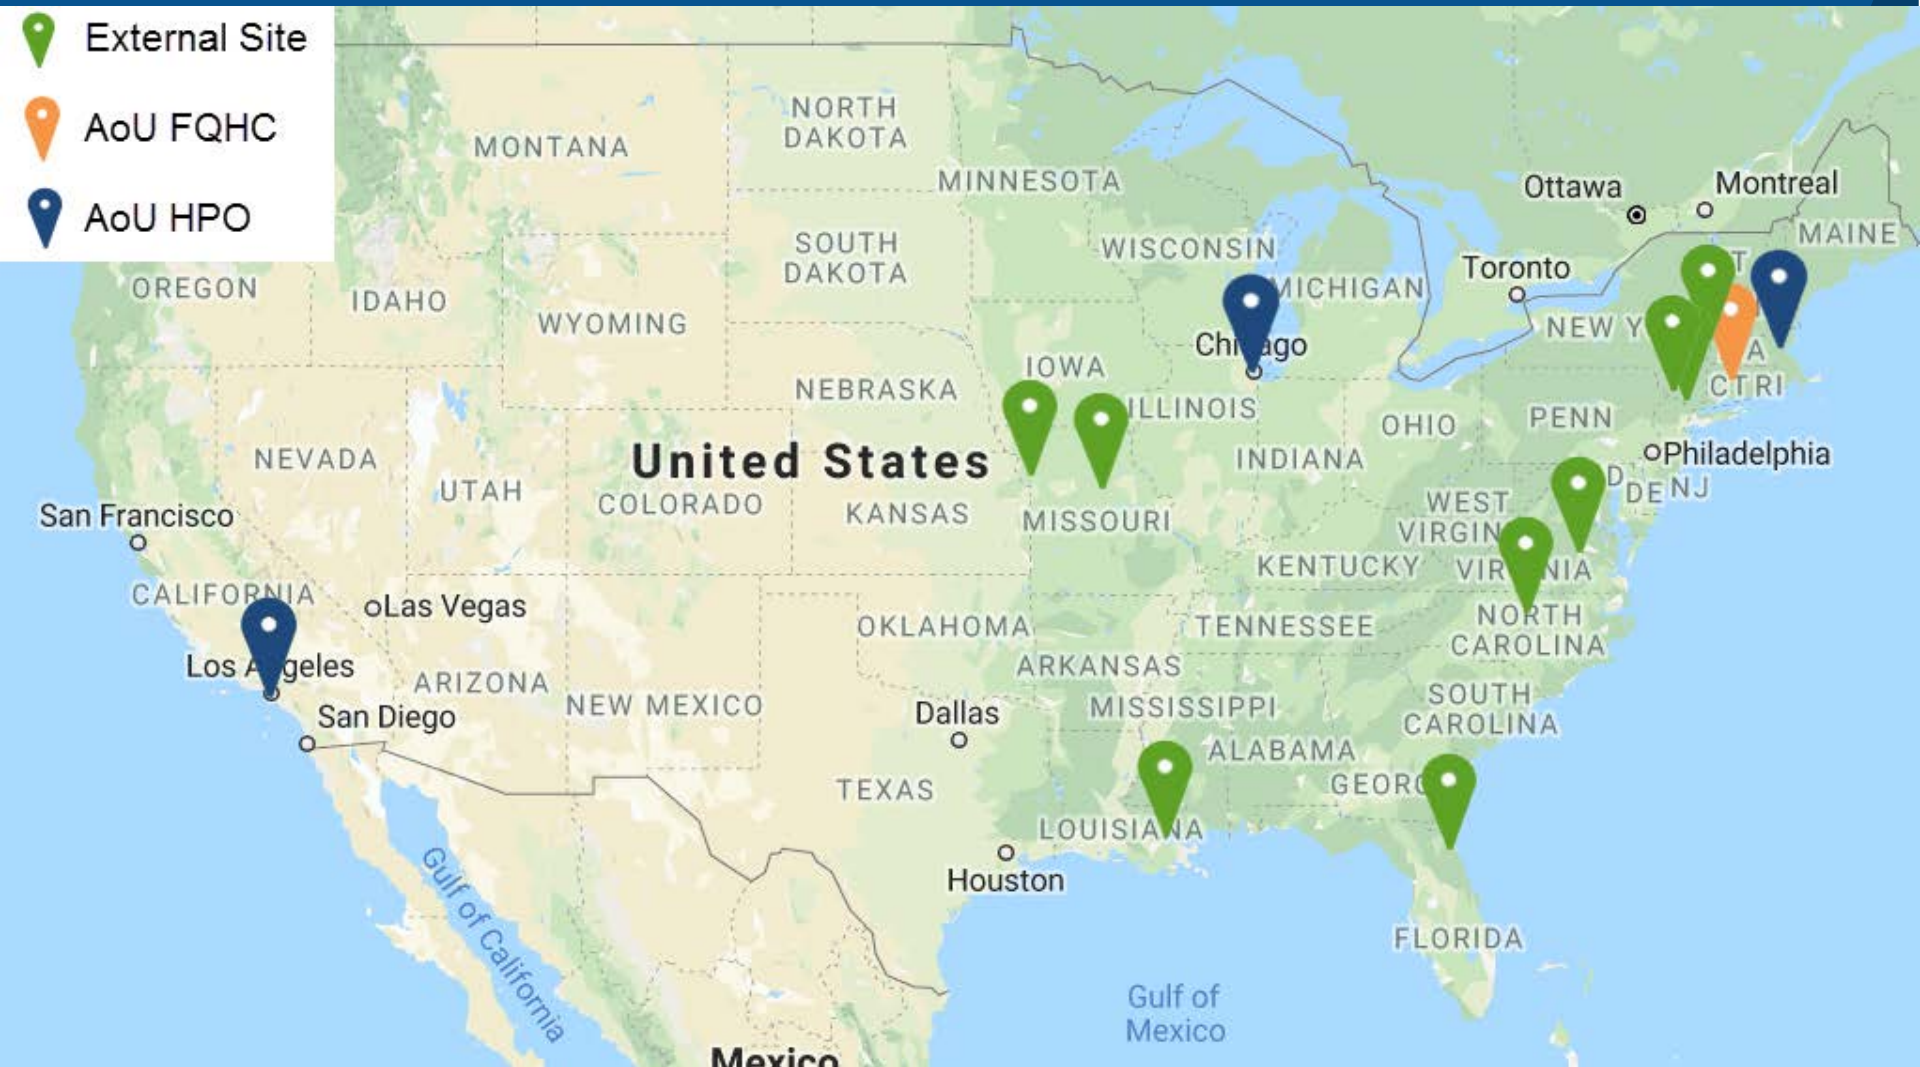

S4S As Component of *All of Us* DV Program

S4S Pilot Provider Clinical Sites – Patients in All of Us S4S Pilot

Data

Sync for Science Application Programming Interface (API) Privacy and Security

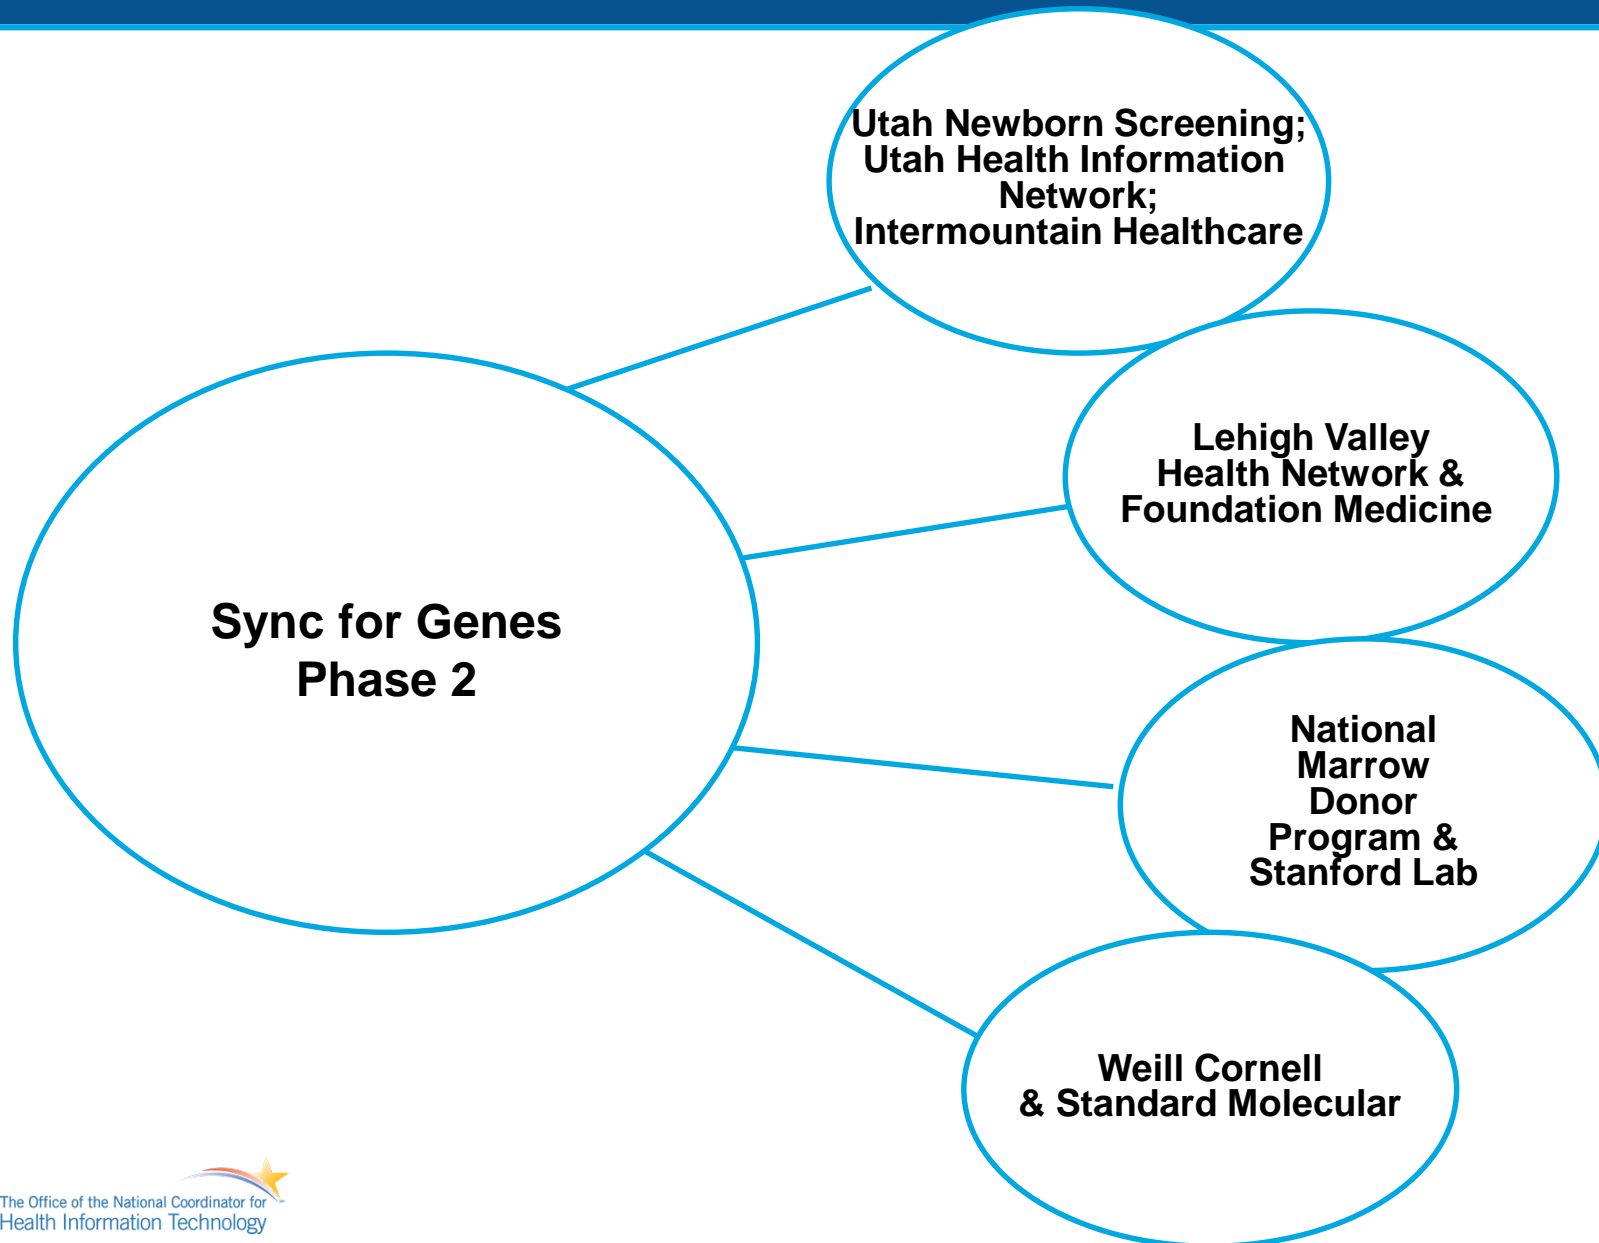

- Technical and administrative testing, analysis, and assessment of APIs developed under the S4S Pilot Project
- In accordance with applicable PMI Privacy and Trust Principles (PMI Privacy Principles) and the PMI Data Security Policy Principles and Framework (PMI Security Principles)

<https://www.healthit.gov/apiprivacysecurity>

Sync for Genes

- To standardize the sharing of genomic information between laboratories, providers, patients, and researchers
- Phase 1
 - » https://www.healthit.gov/sites/default/files/sync_for_genes_report_november_2017.pdf
- Recently launched Phase 2

Sync for Genes: Phase 2
