HITAC Task Force Establishment

Michael Lipinski, Director, Regulatory Affairs Division, ONC
February 20, 2019

Task Force Establishment

ONC has established the following task forces to provide draft recommendations to the HITAC

- 1. Information Blocking.** In addition to the information blocking policies, this will also include the “information blocking,” “assurances,” and “communications” conditions and maintenance of certification requirements as well as policies for enforcement of all the conditions and maintenance of certification requirements.
- 2. Conditions and Maintenance of Certification Requirements.** This includes the “API,” “real world testing,” and “attestations” conditions and maintenance of certification requirements. It will also include the following: updates to the 2015 Edition health IT certification criteria; changes to the ONC Health IT Certification Program; and deregulatory actions.
- 3. Health IT for the Care Continuum.** This will include: ONC recommendations and policies that support pediatric care and practice settings; 2015 edition certification criteria that support multiple care and practice settings; and an “opioid” request for information.
- 4. U.S. Core Data for Interoperability (USCDI) Standard.** This will focus on the draft USCDI v1 data classes and data elements and the USCDI promotion model.
