# Today's Agenda:

- Roll Call and Welcome
- Summary and Action Plan
- Review Workbook Progress
- Surescripts Demonstration
- CoverMyMeds Demonstration
- Public Comment

**Vision**: Support the convergence of clinical and administrative data to improve data interoperability to support clinical care, reduce burden and improve efficiency—furthering implementation of “record once and reuse.”

**Overarching Charge**: Produce information and considerations related to the merging of clinical and administrative data, its transport structures, rules and protections, for electronic prior authorizations to support work underway, or yet to be initiated, to achieve the vision.

A large, abstract graphic composed of overlapping, semi-transparent geometric shapes (triangles, hexagons, and squares) in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, with some shapes appearing to be layered on top of others. The overall effect is a complex, multi-colored pattern that fills the left and center of the page.

# Summary and Action Plan

## Last Meeting

- We examined the work done on the workbook
  - Described work of 'Happy Path' subgroup
    - Discussed guiding principles and ideal state entries, particularly minimum necessary and need to understand workflows for data creation and use
  - Worked on Data Categories table
    - Described ISA-based categorizations, data classes, and maturity of standards
- Discussed the additional need to begin abstracting up from PA to broader intersection of clinical and administrative data
- Outlined demonstration plans for today and 5/5 meetings

## Approach for Today's Work

- Updates about work done on Workbook this week
- Demonstration of Surescripts' ePA work
- Demonstration of CoverMyMeds' ePA work
- Public Comment

A large, abstract graphic composed of numerous overlapping triangles and polygons in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, resembling a stylized map or a complex data visualization.

# Surescripts Demonstration and Discussion

A large, abstract graphic on the left side of the slide, composed of numerous overlapping triangles and polygons in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, resembling a stylized map or a complex data visualization.

# CoverMyMeds Demonstration and Discussion

## Next Steps

- Medical ePA demonstrations next week
- Members or groups continue feedback on workbook – particularly advance data categories and guiding principles and ideal state tabs
  - Input challenges and key considerations for next phase of abstracting up from PA to broader intersection of clinical and administrative data
- Longer Term:
  - Additional Use Cases (Pharmacy, Medical Service, Hospital Service, Specialty):
    - Make decisions about how to proceed at 5/12 meeting
