

Intersection of Clinical and Administrative Data Task Force

Sheryl Turney, Co-chair

Alix Goss, Co-chair

May 12, 2020

The Office of the National Coordinator for
Health Information Technology

Task Force Roster

Name	Organization
Sheryl Turney (co-chair)	Anthem, Inc.
Alix Goss (co-chair)	Imprado/NCVHS
Anil Jain	IBM Watson Health
Arien Malec	Change Healthcare
Andy Truscott	Accenture
Leslie Lenert	Medical University of South Carolina
Ram Sriram	NIST
Sasha TerMaat	Epic
Abby Sears	OCHIN
Jim Jirjis	HCA
Denise Webb	Individual

Name	Organization
Rich Landen	Individual/NCVHS
Debra Strickland	Conduent/NCVHS
Jacki Monson	Sutter Health/NCVHS
Gus Geraci	Individual
Jocelyn Keegan	Point of Care Partners
Tom Mason	ONC
Aaron Miri	HITAC/University of Texas Austin
Steve Brown	VA
Mary Greene/ Alex Mugge	CMS
Alexis Snyder	HITAC/Patient Rep

Today's Agenda:

- Roll Call and Welcome
- Summary and Action Plan
- American Medical Association Presentation and Discussion
- HITAC Update Discussion
- Data Classes Workgroup Update
- Ideal State/Guiding Principles Workgroup Update
- Public Comment

Vision: Support the convergence of clinical and administrative data to improve data interoperability to support clinical care, reduce burden and improve efficiency—furthering implementation of “record once and reuse.”

Overarching Charge: Produce information and considerations related to the merging of clinical and administrative data, its transport structures, rules and protections, for electronic prior authorizations to support work underway, or yet to be initiated, to achieve the vision.

A large, abstract graphic on the left side of the page, composed of various colored triangles and polygons in shades of blue, green, yellow, and orange, creating a complex, layered geometric pattern.

Summary and Action Plan

Last Meeting

- Heard an overview of the HL7 Da Vinci Project, including its history, goals, use cases, and timelines.
- Saw demonstrations of ePA approaches and processes from Humana and Regence
 - Medical ePA focus from payor perspective and how they are using existing X12 and emerging FHIR based standards (Da Vinci)
 - Discussed needs and opportunities for process streamlining, real time benefit information and automated approval, and cost benefits.

A large, abstract graphic composed of overlapping, semi-transparent geometric shapes (triangles, hexagons, and polygons) in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, with some shapes appearing to be layered on top of others.

American Medical Association Presentation and Discussion

HITAC Update Discussion

Outline

- Task Force Charge, Vision, and Approach
- Meeting Schedule and Progress to Date
- Next Steps
- Discussion and Questions for the full HITAC

Questions for HITAC

- As we move from PA focus to broader intersection of clinical and administrative data, what specific goal areas should be covered, or questions should be answered?
- What are key considerations for the task force to keep in mind?
 - Coordination of benefits
 - Cost transparency
- What should we say about timeliness of Prior Approvals across the spectrum?
- What about the standards and adoption of attachment requirements?
- What other topic areas should we include in the conversation of clinical and administrative?
- What are the barriers and changes EMR systems need to make to support the intersection of clinical and administrative data?
- Is there a way to standardize the data requests across payers which clinical decisions are based upon even if the prior authorization decisions differ by payer, plan and product? And how would the USCDI fit into this model?

Data Classes Workgroup Update

A large, abstract graphic on the left side of the slide, composed of numerous overlapping triangles and polygons in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, resembling a stylized, multi-colored arrow or a cluster of geometric forms.

Ideal State and Guiding Principles Workgroup Update

Next Steps

- Members or groups continue feedback on workbook
- Next Week:
 - Moving from PA example to broader discussion of integration
- Longer Term:
 - Additional Use Cases (Pharmacy, Medical Service, Hospital Service, Specialty):

**Meeting
Adjourned**
