# Today's Agenda:

- Roll Call and Welcome
- Summary and Action Plan
- Centers for Medicare and Medicaid Services:  
Documentation Requirement Lookup Service Demonstration and Discussion
- Data Classes Update
- Next Steps
- Public Comment

**Vision**: Support the convergence of clinical and administrative data to improve data interoperability to support clinical care, reduce burden and improve efficiency—furthering implementation of “record once and reuse.”

**Overarching Charge**: Produce information and considerations related to the merging of clinical and administrative data, its transport structures, rules and protections, for electronic prior authorizations to support work underway, or yet to be initiated, to achieve the vision.

A large, abstract graphic composed of overlapping, semi-transparent geometric shapes (triangles, hexagons, and squares) in various shades of blue, green, yellow, and orange. The shapes are arranged in a way that creates a sense of depth and movement, with some shapes appearing to be layered on top of others. The overall effect is a complex, multi-colored pattern that fills the left and center portions of the page.

# Summary and Action Plan

## Last Meeting

- We discussed the Guiding Principles and Ideal State work, including the design for future state work.
  - Considered how to focus on highest value areas and ‘create a pathway to automation’ for PA
- Took a detailed look at the Data Classes and Data Elements workbook tabs, discussing overall code disposition needs, burden considerations, and update schedules
- Discussed the timelines required for the TF to finish work – emphasizing need for a solid draft recommendations document by July to be ready to present at the 9/9 full HITAC meeting
