Priority Uses of Health IT

21st Century Cures Act

"The National Coordinator shall periodically convene the HIT Advisory Committee to identify priority uses of health information technology…identify existing standards and implementation specifications that support the use and exchange of electronic health information needed to meet the priorities…publish a report summarizing the findings of the analysis…and make appropriate recommendations…"

"The HIT Advisory Committee, in collaboration with the National Institute for Standards and Technology, shall annually and through the use of public input, review and publish priorities for the use of health information technology, standards, and implementation specifications to support those priorities."
