HITAC Priority Uses of Health IT

• In general, the HITAC shall make recommendations to the National Coordinator for Health Information Technology on a policy framework for adoption by the Secretary consistent with the strategic plan under section 3001(c)(3) of the PHSA, as amended for advancing the following target areas:

- **Use of Technologies that Support Public Health:** The facilitation of bidirectional information sharing between the clinical and public health communities

- **Interoperability:** Achieving a health information technology infrastructure that allows for the electronic access, exchange, and use of health information

- **Privacy and Security:** The promotion and protection of privacy and security of health information in health IT

- **Patient Access:** The facilitation of secure access by an individual and their caregiver(s) to such individual’s protected health information
Interoperability Standards Workgroup Charge

**Overarching charge**: Review and provide recommendations on the Draft USCDI Version 3 and other interoperability standards

**Specific Phase 2 charge:**

Identify opportunities to update the ONC Interoperability Standards Advisory (ISA) to address the HITAC priority uses of health IT, including related standards and implementation specifications.
