- *Christoph Lehmann, co-chair*
 - *Carol Robinson, co-chair*
- 11:50 a.m. Public Comment**

12:00 p.m. Adourn

Panelist Questions

Panel 1: Provider/Payer/Patient Perspective

- What exchange use cases do you support? What challenges are inhibiting or slowing your ability to broadly deploy/support these use cases?
- What business practices by providers and vendors or other factors are currently blocking information following patients to support patient care?
- What, if any, actions should be taken at the national level to help address the governance challenges that are inhibiting the exchange of health information across entities or to mitigate risks to patient safety and/or privacy, when exchange is occurring? What role should ONC or other federal agencies play? What role should states play? What role should the private sector play? What role should incentives play?
- Would it be beneficial if ONC monitored the information exchange market to identify successes, challenges, and abuses? If so, what methods of monitoring would be effective; and, what actions should ONC take based upon findings from monitoring?

Panel 2: Exchange Service Providers

- What exchange use cases do you support? What challenges are inhibiting or slowing your ability to broadly deploy/support these use cases?
- What policy, trust, and technical requirements do you require be met before agreeing to exchange with another exchange service provider? What if any assurances do you require that your trading partners are adhering to these requirements?
- What governance challenges are putting patient safety and/or privacy at risk, when health information exchange is occurring?
- What factors are limiting the exchange of health information?
- What, if any, actions should be taken at the national level to help address the governance challenges that are inhibiting the exchange of health information across entities or to mitigate risks to patient safety and/or privacy when exchange is occurring? What role should ONC or other federal agencies play? What role should states play? What role should the private sector play?
- Would it be beneficial if ONC monitored the information exchange market to identify successes, challenges, and abuses? If so, what methods of monitoring would be effective; and, what actions should ONC take based upon findings from monitoring?
